

Innopower Profile

寅通科技 (Innopower Technology Corporation) 为智原科技 (Faraday Technology Corporation) 100%股份持有之子公司。从2010年一月一日起, 寅通科技将透过交互授权, 成为智原科技唯一的IP经销商, 透过双方的紧密合作, 寅通科技将在智原科技超过15年的IP开发经验的帮助下, 展开IP业务的推广以及专业的客户服务。寅通科技弹性的业务模式以及客制化IP的专业服务, 将是晶圆专工公司 (foundry) 及 IDM、Fabless design house的最好伙伴。

About Innopower

<http://www.innopower-tech.com/>

InnoPower is a wholly owned subsidiary of Faraday Technology Corporation. As a separate legal entity, it leverages Faraday's past development experience, extensive automation capabilities and acquired patent portfolio to offer competitive semiconductor intellectual properties (IP) for foundries, IDM's and fabless design companies. These products are highly differentiated and most of them are production proven. InnoPower also has a strong engineering team with established industry track record and highly innovative. The product offering focuses on the fundamental libraries (standard cells, memory compilers and I/O's), special I/O and functional IPs (such as USB, PCI Express, Ethernet).

InnoPower holds a significant market share in the Silicon IP market as we inherited Faraday's years of experience in Silicon IP field. We continually launched more competitive products, like miniLib+ (ultra high density library) and USB3.0 IP etc., to meet the diversified application requirements of this semiconductor industry.

About Faraday

<http://www.faraday-tech.com/index.html>

Faraday Technology Corporation, founded in 1993, is a leading fabless ASIC and silicon IP provider. We provide a broad portfolio of in-house developed IP and we also have application-oriented SoC platforms to help customers reduce design cost/risk and accelerate their time-to-profit. Faraday's world-class IPs have been used in thousands of projects with more than 400 customers worldwide. Faraday's robust design service capabilities make Faraday unique among IP suppliers., we have been developing a comprehensive portfolio of IP for particular market segments, like high performance, low power, or small die size, etc. Faraday is committed to maintaining and supporting the highest quality IPs for all of our customers, from design-in to full-scale production.
